 - 3-3/4"x5-1/4"
 - 3-3/4" x 3/4"
- Petal Pink Braided Trim
 - 3"
- Piece of Twine or Gold Twisted Thread
 - 10"

INSTRUCTIONS

1. Cut and score the card base.
2. Attach DSP to the front of the card base. Only add adhesive to the edges of the DSP.
3. Turn card base (top side up) around where the 1/2" tab is on the left side.
4. Insert card base into trimmer at the 1-1/2" mark.
5. Cut slit starting at 1" down to 4-1/2".
6. Add tear tape adhesive to the 1/2" tab. Do not remove backing.
7. Burnish score lines.
8. Insert basic white slider mechanism with 3/4" extending to right of slit on top of card base.
9. Add a large dimensional to that 3/4" slider mechanism that is sticking out.
10. Turn card over and add 2 strips of tear tape adhesive to the slider mechanism.
11. Attach small strip of DSP to top of basic white panel. Try to get tape close to the edges so it doesn't stick when the card is pulled up out of the pocket.
12. Stamp greeting toward top of the basic white panel. (Note: if you stamp it too low it will not show when you slide it out of the pocket because of your decor on the front).

[Instruction](#)

13. While centering the white panel over the card base (tab is on left at this time) and positioning the panel slightly below the top of the card base, remove tear tape backing and attach basic white panel to the slider mechanism.
14. Using 1-7/8" circle punch (or smaller), punch small thumbnail divot in front of card base in center top.
15. Remove tear tape adhesive backing from card base tab and fold under to make a pocket.
16. Stamp greetings or images on basic white strip and punch out with 1-7/8" circle punch (2).
17. Using 2-3/8" and 2" circle punches, punch circles from pretty peacock cardstock and using 2" circle punch, punch a petal pink circle to use as a layer on the largest circle decor.
18. Attach 1-7/8" stamped image to 2" pink circle, then attach those to pretty peacock 2-3/8" circle.
19. Attach 2-3/8" layered circle to the bottom right corner of card front to dimensional on slider mechanism.
20. Attach 1-7/8" stamped image circle to 2" pretty peacock circle.
21. Attach layered circle to upper left of the larger layered circle attached to slider mechanism (make sure when panel is pulled out of the pocket, you can see the greeting before permanently attaching the 2nd layered circle.)**
22. Punch white slider panel at top center with small hole for ribbon.
23. Thread the petal pink braid through the punched hole. Fray braided ribbon.
24. Tie a bow around the petal pink braid using twine or gold thread.
25. Add charming shimmer faceted dots to card front.

**Alternative to stamping punched circles: emboss circles after stamping and also can use without stamping or use other alternative nested dies.
