Measurements:

Cardstock #1 Card Base Petal Pink
8.5"x5.5" scored 4.25"
5.5"x1.5" emboss
2.75" square die cut stylish shapes

This is a landscape card 5.5"x4.25"

Cardstock #2 Basic White
2.5" square die cut stylish shapes
2.75"x4" Inside Card
2"x2.5" scrap for sentiment die cut

DSP #1 Coordinating DSP
1-1/8"x4" (4) watch DSP direction
DSP #2 Coordinating DSP
2.75"x4

Gold Foil 2" x 2.5" scrap for
sentiment layer die cut

Instructions:

Cut petal pink cardstock 8.5"x5.5" and score 4.25". Burnish with your bone folder. Landscape Card

Insert card base back into trimmer with the 5.5" side at the top of the trimmer. Line up at 1.25" and cut from middle score line down to end of card and cut again at 4.25" leaving you with a flap measuring 3" wide in the middle of your card. (See page 2 photo)

Glue the 1-1/8"x4" designer paper strips on the 1.25" wide petal pink strips on each side of the card front and on the inside of the card at the same measurement.

Glue the 2.75"x4" designer paper panel on the center front panel of the card.

Die cut the largest square in the Stylish Shapes dies on the petal pink cardstock.

Die cut the 2nd largest square in the Stylish Shapes dies with basic white cardstock.

Stamp Wishing You a Lovely Day sentiment from the Paradise Garden stamp set using Basic Gray ink on the 2-3/4"x4" basic white panel. Stamp the small flower from the Simply Beautiful stamp set with petal pink ink.

Adhere the white stamped panel to the inside back panel between the 2 DSP strips. Close the card.

On the center panel only, adhere the designer series paper panel to the center front petal pink panel.

Using basic gray ink stamp Another Wonderful Year from the Reason To Celebrate Stamp Set on the Beautifully Celebrated smallest die label. Cut gold foil using the same smallest die. Cut in half and layer on the back of the white label, trimming any edges that stick out on the side.

Adhere to the front center panel on top of the DSP 2-3/4"x4" layer.

Emboss the 1.5"x5.5" petal pink cardstock strip with the Lazy Daisy 3D embossing folder.

Adhere the embossed panel to the 2 1-1/8"x4" DSP strips in the center of the front of the card, being careful not to get glue on the center panel. Put glue only on the DSP strips where the bridge panel sits. This panel will bridge across the center DSP panel without touching.

Adhere the largest petal pink stitched shape square die cut to the embossed bridge, being careful not to get glue on anything under the bridge. You can place it squarely or on a diamond.

Adhere the basic white stylish shapes square to the top of the petal pink die cut matching the same way you positioned the petal pink square.

Color the back of the white vellum flower using the bending brush and calypso coral ink staying to the center of the flower. When dry, add a tiny dimensional to the center of the flower and attach to the basic white die cut. Add glue to the gold leaves and stick under the flower on both sides.

Embellish with the Pearlized Faceted Circles
